

A decorative graphic in the top left corner consisting of several parallel yellow and green lines of varying lengths, creating a sense of movement and depth.

Gymnastics Ethics Foundation (GEF)

The Gymnastics Ethics Foundation (GEF) was founded in January 2019 by the Fédération Internationale de Gymnastique (FIG), the world governing body for the sport of gymnastics with 148-member national federations. It now operates independently to ensure that violations of FIG rules, policies, and procedures, including ethical breaches, are handled in an unbiased way.

The GEF focuses on:

- **Safeguarding:** Protecting athletes and other participants in gymnastics from harassment and abuse.
- **Disciplinary:** Carrying out disciplinary proceedings in accordance with FIG policies and procedures.
- **Compliance:** Monitoring good governance and ethical principles of the FIG and its members.
